Leishmanolysin precursor (EC 3.4.24.36) (Cell
(Major surface glycoprotein) (GP63 protein)
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Biochem. Parasitol. 48:173-184(1991).

FUNCTION: Has an integral role during the infection of in the mammalian host.

CATALYTIC ACTIVITY: Preference for hydrophobic residues P1' and basic residues at P2 and P3'. A model nonapept: cleaved at -Ala-Tyr-|-Leu-Lys-Lys-Lys-COFACTOR: Binds I zinc ion per subunit (By similarity) SUBCELLULAR LOCATION: Attached to the membrane by a GP. SIMILARITY: Belongs to peptidase family M8.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     M60048; AAA29244.1;

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
